

How to Parallel Park a Car

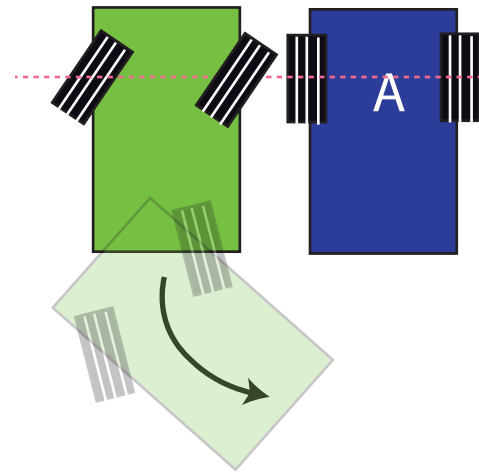

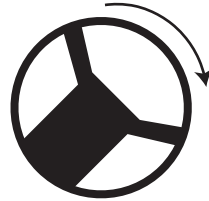

Steering Wheel

With steering wheel centered, reverse until front tires of your car are lined up with front tires of car A.

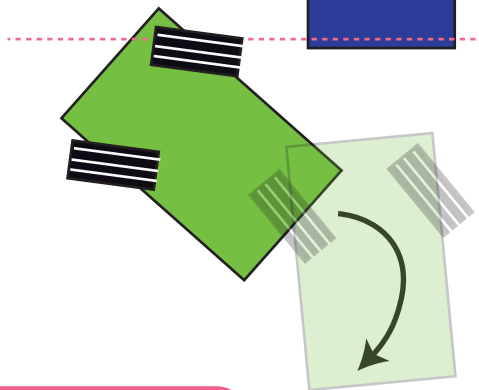

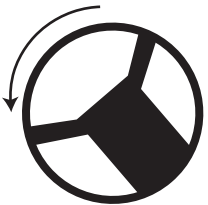

Steering Wheel

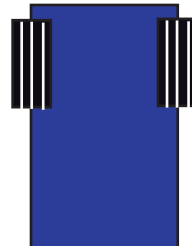

Once tires are aligned, turn steering all the way to the right and keep reversing.

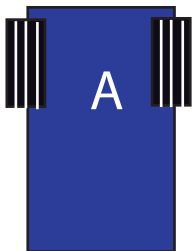

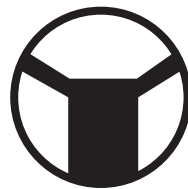

Steering Wheel

When the front tires of your car are aligned with the bumper of car A turn steering wheel all the way to the left.

Steering Wheel

Once in center of space, straighten steering. Pull forward or back as needed.
